Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1,4,6-9,40,43-49,52,54-57,88,91-98,103-161,164-181,184-194,201-205 and 208-215.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 4, 6-9, 40, 43-49, 52, 54-57, 88, 91-98, 103-161, 164-181, 184-194, 201-205, and 208, drawn to a method for providing answers on one or more topics from a set of expert..., classified in class 705, subclass 9.
 - II. Claims 209-215, drawn to a method, executed by a server, for proving answers on one or more topics from at least one topic..., classified in class 707, subclass .001.000.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as the grouping of questions being accessible to the expert upon generation of the personal interface. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Since the restriction is complex and the examiner knows from past experience that an election will not be made by telephone, this restriction is proper under MPEP 812.01.
